

Here are some screen shots of my system when adding the district calendar to my Google Calendar.

In a browser window on the district website calendar page, I've right clicked the link at bottom on the screen.

### Calendar

Now in another browser tab, connected to [www.google.com](http://www.google.com) and on the calendar page

The screenshot shows the Google Calendar interface. At the top, there is a navigation bar with links for +Robert, Search, Images, Maps, Play, YouTube, News, Gmail, and Documents. Below this is the Google logo and a search bar labeled "Search Calendar". The main header shows "Calendar" and "Today" with navigation arrows and the date "Aug 12 - 18, 2012".

The main content area is divided into three sections:

- CREATE**: A red button with a dropdown arrow.
- August 2012**: A calendar grid showing the month of August. The date 15 is highlighted. The grid shows days of the week (S, M, T, W, T, F, S) and dates from 29 to 8.
- My calendars**: A list of calendars with checkboxes:
  - Robert Reuscher
  - MARS Calendar
  - North Star District Ca...
  - Tasks
- Other calendars**: A list of other calendars with checkboxes:
  - Add a friend's calendar
  - Boy Scouts
  - CFBISD Calendar
  - Cindy Home
  - Cindy Work
  - Events for Troop 876...
  - HAM Radio
  - LISD Calendar
  - NorthDistrict
  - Other Family Membe...
  - Personal
  - US Holidays

The right side of the interface shows a time slot grid for "Sun 8/12" and "Mon". The time slots range from 12am to 9pm. A dropdown menu is open over the "Add a friend's calendar" option, showing the following options:

- Add a friend's calendar
- Browse Interesting Calendars
- Add by URL
- Import calendar
- Settings

Then in the pop up window when you select the Add by url I paste copied URL into the URL box (it's longer than the space allowed for display in the box, so you only see part of it:

The screenshot shows the Google Calendar interface. At the top, there is a search bar with the Google logo and a search button. Below that, the word "Calendar" is displayed in red, followed by navigation buttons for "Today", previous/next days, and the current date range "Aug 12 - 18, 2012".

On the left side, there is a "CREATE" button and a calendar navigation menu for August 2012. Below that, there are sections for "My calendars" and "Other calendars", each with a list of calendar names and checkboxes to toggle them on or off.

The main area of the calendar is a grid showing the days of the week (Sun 8/12, Mon 8/13, Tue 8/14, Wed 8/15, Thu 8/16) and the time of day (from 12am to 7pm). The Wednesday column (8/15) is highlighted in grey.

An "Add by URL" dialog box is open in the foreground, centered over the calendar grid. The dialog has a title bar with "Add by URL" and a close button (X). Inside the dialog, there is a "URL:" label followed by a text input field containing the URL: "com/pubcal2.ics?927420ed1cebef404bc698ebb7094e6". Below the input field, there is a note: "If you know the address to a calendar (in iCal format), you can type in the address here." and a checkbox labeled "Make the calendar publicly accessible?". At the bottom of the dialog, there are two buttons: "Add Calendar" and "Cancel".

I then get in the calendar:

The screenshot displays the Google Calendar interface for August 12-18, 2012. The top navigation bar includes the Google logo, a search bar, and user information for Robert Reuscher. A notification banner at the top center states "Calendar was imported successfully." The main calendar grid shows a weekly view with columns for each day from Sunday to Saturday. The time slots range from 12am to 11pm. Several events are visible, primarily on Wednesday (8/15) and Saturday (8/18). The events are represented by orange and yellow blocks with text labels.

Day	Event	Time
Tue 8/14	North Star District Leader Training	6:30p - 8p
Tue 8/14	North Star District Joint Cub Scout/Boy Scout Roundtable	7p - 9p
Wed 8/15	North Star District Leader Training	6:30p - 8p
Wed 8/15	North Star District Joint Scout Night (JSN) Training	7p - 9p
Thu 8/16	North Star District Popcom Leader Training	6:30p - 8p
Sat 8/18	North Star District Popcom Leader Training	6:30p - 8p

The left sidebar contains a "CREATE" button, a calendar grid for August 2012, and a list of "My calendars" and "Other calendars" with checkboxes for each.

You can see at the top it says Calendar was successfully imported, and now you see the North Star events, they are the yellow hashed items at the bottom. You can change this on the calendar by picking settings beside the calendar.
